Minerva becomes one of the most important partners of Preactor in Central Europe

Prague, 19 January 2009

Minerva Czech Republic has signed a new distribution agreement with the SW company Preactor (GB) for the distribution, installation and maintenance of a system for advanced planning and scheduling (APS) – the Partner Agreement 2009.

Minerva CR has moved up from the partnership level of Reseller with Preactor to Silver Solution Provider. This new status was awarded mainly as the result of Minerva's product knowledge, turnover from implemented projects and licenses and the number of implementations. Minerva has thus become one of the most important partners of Preactor in Central Europe and the implementer of the another world-renowned software following the ERP system, QAD Enterprise Applications.

Minerva CR has successfully implemented APS Preactor in the Czech Republic and Slovakia in more than ten manufacturing companies in the industrial products, automotive, medical devices and tools and wood processing industries. The aim of Minerva CR in 2009 is to achieve the highest level of partnership with Preactor to become a Gold Solution Provider.

MINERVA is the exclusive provider of QAD Enterprise Applications in the Czech Republic and Slovakia and serves as a QAD distributor in Eastern Europe.

With a sharp customer focus, Minerva is an organization that helps production and distribution companies improve their overall company management with greater efficiency, control, and productivity through the implementation of information systems.

Minerva is capable of offering customers all services, from the installation of software and consulting to system integration and world-class e-business solutions. Years of experience on the market of enterprise resource planning (ERP) and more than 100 companies using QAD Enterprise Applications in the Czech Republic, Slovakia, Russia, Lithuania, Ukraine and elsewhere confirm that customer satisfaction is a commitment Minerva takes seriously.
