Minerva Czech Republic has announced automobile industry MMOG/LE standard training for suppliers

Prague, 12 May 2008

Minerva CR has announced additional MOG/LE standard training to be held May 27 and 28, 2008 at company offices in Prague. Minerva is a member of the Odette CR Automotive Association and is authorized by this association to conduct training and provide services related to MMOG/LE.

The MMOG/LE is increasingly being used by original equipment manufacturers (OEM) and Tier 1 suppliers and is also required of suppliers by other manufacturers. Based on the resulting score (level A, B, or C), individual suppliers are categorized and chosen for deliveries in the supply chain. The MMOG/LE standard is also used by suppliers as a tool for self-evaluation and the continual improvement of their processes in order to satisfy all key demands. Upon completion of the training participants will be able to comprehend the principle of the standard, its sections, and subsequent use in their businesses. The training is intended for automobile industry suppliers, particularly for employees in management positions in logistics and quality control departments. To register or receive more information please use marketing@minerva-is.cz.

MINERVA is the exclusive provider of QAD Enterprise Applications in the Czech Republic and Slovakia and serves as the QAD distributor in Eastern Europe.

With a sharp customer focus, Minerva is an organization that helps production and distribution companies improve their overall company management with greater efficiency, control, and productivity through the implementation of information systems. Minerva is capable of offering customers all services, from the installation of software and consulting to system integration and world-class e-business solutions. Years of experience on the market of enterprise resource planning (ERP) and more than 100 companies using QAD Enterprise Applications (previously MFG/PRO) in the Czech Republic, Slovakia, Russia, Ukraine, and Lithuania confirm that customer satisfaction is a commitment Minerva takes seriously.
